

Priming business for a bright future

At Liberty, we aim to lighten the load for business customers with our range of free-thinking lending solutions.

Here's how we helped another customer lift their business after COVID-19.

Customer story: A natural skin care company was seeking funds to fit out a purpose-built factory and support growth. Instead of temporary short-term funding, they needed a longer-term solution.

Liberty solution: Liberty approved a \$1.9m Business Care loan over 10 years at 5.45%. Funds included \$1.6m to refinance existing loans and \$300k for working capital. Lending was supported by director guarantees and All PAAPs over trading entities.

For more information about our Business Care product, download the [Australian Business Introducer Guide](#) from the Commercial documents tab on Liberty IQ.
