

NABBROKER.COM.AU REFRESH

Your guide to what's changed

We've enhanced the home page of the secure aggregator area so it's easier for you to find all the sections you need. Refer to the key points below to see the changes and how they can benefit you going forward.

KEY POINTS:

1. A consolidated menu, grouping content into logical headings to enable you to get to the information you need faster. Find broker guide content directly via the **Broker Guide** or **Resources** tab, and information on residential and business products in the **Products** tab.
2. An additional **Commissions** menu item for **privileged users** only so that trailing and ongoing commissions statements can be downloaded.
3. A **search** function to easily find what you are looking for.
4. A **My details** section to change your **security** questions and answers.
